Dress the Hair

With Ayer's Hair Vigor. Its cleansing, beneficial effects on the scalp, and its long-lasting perfume commend it for universal toilet use. It keeps the hair soft and pliant, preserves its color, prevents its falling out, and if the hair has become weak or thin, promotes a new growth.

To restore the original color of my hair, which had turned prematurely gray, I used Ayer's Hair Vigor with entire success. I cheerfully testify to the efficacy of this preparation.

—Mrs. P. H. David,
Boston, Mass.

"I was afflicted some three years with scalp disease. My hair was falling out and what remained turned gray. I was induced to try Ayer's Hair Vigor, and in a few weeks the disease in my scalp disappeared and my hair resumed its original color." (Rev.) S. S. Sims,
Pastor U. B. Church, St. Bernard, Ind.

"A few years ago I suffered the entire loss of my hair from the effects of a severe cold. After a time nature would repair the loss, but I waited in vain. Many remedies were suggested, none, however, with such prompt results as Ayer's Hair Vigor, and I began to use it. The result was all I could have desired. A growth of hair soon came out all over my head, and grew to be as soft and heavy as I ever had, and of a natural color, and Army style."—J. H. Pratt,
Sufford, Texas.

Ayer's Hair Vigor,

PREPARED BY
DR. J. C. AYER & CO., Lowell, Mass.
Sold by Druggists and Perfumers.

A WHOLE-SOLED FIRM.

Wallace & Rice,

UMBRELLAS in silk and other goods, with assorted handles.

Elegant line of Shirt Jewelry.

41-40.

GANTER'S

CHICKEN
Cholera Cure!

Thousands of dollars worth of chickens die every year from Cholera. It is more fatal to chickens than all other diseases combined. But the discovery of a remedy that positively cures it has been made, and to be convinced of its efficacy only requires a trial. A 50-cent bottle is enough for one hundred chickens. It is guaranteed. If, after using two-thirds of a bottle, the fever is not thoroughly satisfied with it as a cure for Cholera, return it to the undersigned and your money will be refunded.

19-18 STOCKTON & BROOKS.

A BIRTHDAY.

Up from the under-world they come again,
Dim forms of vanished years;
And some now-parted, now known of pain;
Some pale with tears.

The golden summers of yore girdled their days,
When all the world was young;
The golden summers of yore girdled their days,
When all the world was young.

Rose-scented gales that are the breath of June;
The north wind's bitter blast—
With many voices they sing the tune
Of life that's past.

And could they tell us of the years to come—
Would it be better so?
But hark! the Book is sealed, their lips are dumb;

We may not know.
I can but wish you what is good and great,
True-hearted till the end,
Nor ever daunted by an adverse fate.

And if it be that you must tread alone
The long and empty years,
Wear still the roses of the past you've known,
With hopes, but fears.

—Chambers Journal.

THE HAUNTED MANSION.

Why I Am as Skeptical Concerning Ghosts as Ever.

In the fall of 1852 (says an acquaintance to whom I was indebted for the present singular story) I was spending a few weeks in the City of New Orleans.

One evening, while in company with some friends—ladies and gentlemen—the conversation turned upon ghosts, hobgoblins, evil spirits, haunted houses, and the like; and being a great skeptic in all such matters, I freely expressed myself to that effect, saying that I believed all ghosts to be mere fancies of timid visionaries.

"I am not," said I, "rather boastfully, 'if there is such a thing as a haunted house in the universe—haunted by spirit-devils and not man-devils—I should like nothing better than to pass a night there.'"

"Would you dare to do it?" inquired a very pretty young lady, fixing her large, blue eyes upon me, with an expression that I thought implied some doubt of my courage.

"Try me and see!" I replied, with a dignified bow.

"Good faith, then, we will!" rejoined an excited gentleman, as he seized me by the button. "There is a splendid mansion, some two or three miles above the city, where I have heard of a ghost, and I have heard of a ghost, and I have heard of a ghost."

"In the midst of a beautiful orange grove, because no one cares to live in it! Come! to put your boasting to the test, I will wager you a champagne supper that you dare not spend the night there, alone, from sun to sun!"

"I take the bet!" returned I, promptly—for the least hesitation there would have brought upon me a storm of reproaches. "Now, what night shall we name for the venture, and how shall I obtain entrance into the building?"

"I will let you choose your own night," answered the other; "and as the doors of the mansion are always unlocked, and frequently stand open, you can enter any time, without let or hindrance."

"If not too soon for your purpose, I will name to-morrow night by the great trial of my nerves by supernatural agency. But I give you warning to all whom it may concern." I added, slightly compressing my lips, and speaking in the tone of stern determination which always shows the individual to be in serious earnest.

"That I shall go well armed, and be likely to try the effect of a few leaden balls upon whatever object, either of this world or the other, shall venture to disturb my peaceful tranquility!"

"And if you do shoot a ghost," laughed one of the most skeptical of the ladies, "may bring off, and have it stuffed for future exhibition."

"By my faith, I believe such things are all stuff!" I rejoined, in a merry mood.

Well, matters being all settled for the subsequent trying of my nerves and the shaking of my skepticism, I took leave of the company at a reasonable hour, repaired to my hotel, and slept soundly till morning.

The next day I provided myself with two brace of pistols, a couple of sheath-knives, a bottle of brandy, and a basket of provisions; and in the afternoon, accompanied by the gentleman with whom I had laid the wager and two others, I rode out to the haunted mansion to make a reconnaissance in force. When it was first pointed out to me, looming up grandly beautiful from amid a delightful orange grove, I believed my companions were jesting, not thinking it possible that so lovely a place had been abandoned for what appeared to me so trifling a cause as superstitious spirit-devilries. Riding past it some little distance, we left the carriage, entered the grounds on foot, and approached the building through a grove of trees. There was an air of desertion and desolation about the premises that I confess sent a chill through me at the very first. Could there possibly be any truth in the strange report concerning its supernatural tenancy? I asked myself what nonsense! The structure itself was large, roomy and grand, with marble steps, fluted columns, tessellated floors and stone stairs. The doors were open, and the windows empty, dusty and decaying—a fit abode for painful and gloomy contemplation.

We explored every portion above ground, but did not descend into the cellars, the doors of which were locked, a fact that struck me as somewhat singular. When my friends got ready to depart I told them they might leave me there—that Heaven and the Other Place permitting, I should spend the night under that roof—and that if they felt any interest in my fate, they might come for me the next morning at sunrise. They all shook hands with me, confessed they did not envy me my night's lodging, and possible adventures, and went away with much lighter spirits than I felt at seeing them take their leave.

I shall briefly pass over the first part of the night, because nothing remarkable then occurred. I had selected a room in the second story for my watch, and pistol in hand, had stationed myself by one of the windows, whence I could make my exit to the ground below, in case of dire necessity,

NEW HEAT GENERATOR.

Marvellous Discovery Made by a Philadelphian.

The discovery by a Philadelphia manufacturer of a new method of heat generation promises—if promises are to be trusted—to some day supplant almost every other method of producing heat, and will revolutionize the world of thought, a loyal citizen of the oldest and wisest republic. It is this historical knowledge of language, and not of language only, but of every thing that has been handed down to us by an uninterrupted tradition from father to son, it is that kind of knowledge which I hold that our universities and schools should strive to maintain. It is the historical spirit with which they should try to inspire every new generation. As we trace the course of a mighty river back from valley to valley, as we watch its tributaries, and catch its meanderings, till we reach its source, or at all events as near to it as the remaining records of the past will allow. The true interest of all knowledge lies in its growth. The very mistakes of the past form the solid ground on which the truer knowledge of the present is founded. Would a mathematician be a mathematician who had not studied his Euclid? Would an astronomer be an astronomer who did not know the Ptolemaic system of astronomy, and did not work his way through its errors to the truer views of Copernicus? Would a philosopher be a philosopher who had never grappled with Plato and Aristotle? Would a lawyer be a lawyer who had never heard of Roman law? There is but one key to the present—that is to know the past. It is but to understand the continuous growth of the human mind and to gain a firm grasp of what it has achieved in any department of knowledge—that is to watch its historical development. No doubt it will be said there is no time for all this in the hurry and flurry of our modern life. There are so many things to learn that students must be satisfied with results, without troubling themselves about the process. But the results of the labor of those who have stood the continuous growth of the human mind and to gain a firm grasp of what it has achieved in any department of knowledge—that is to watch its historical development. No doubt it will be said there is no time for all this in the hurry and flurry of our modern life. There are so many things to learn that students must be satisfied with results, without troubling themselves about the process. But the results of the labor of those who have stood the continuous growth of the human mind and to gain a firm grasp of what it has achieved in any department of knowledge—that is to watch its historical development. WM. G. WHITE. CHAS. S. POWELL.

PRICE PER YEAR, \$1.50.

WEDNESDAY, JUNE 12, 1889

Gov. Hill, of New York, has vetoed the high-license bill.

Wood Daplan, the much talked of candidate for State Treasurer, is at home. He is "willin'." - Interior Journal.

Editor W. P. Walton, of the Stanford Interior Journal, has been indicted by the Laurel county grand jury at the instance of Judge Boyd for criminal libel, his offense being the publication of a letter charging that the Judge had suppressed indictments against Republicans for election frauds.

The Owl published at Lagrange, has the following about a very excellent gentleman:

Hon. Evan Settle, of Owen county, will be a candidate for Speaker of the next Legislature, and it goes without saying that he is as well qualified to fill that important position as any gentleman who may be a member.

"I come to you with no excuse, no apologies and no confession of cowardice. We know that we have espoused that cause of right and justice; we know that we have not permitted duty to country to wait upon expediency; we know that we have not trafficked our principles for success." - Grover Cleveland at the Young Men's Democratic Club's Banquet, New York.

Hon. John Young Brown has privately informed his friends that he will fight to a finish for the Governorship. Senator Harris, Attorney General Harding and Judge John Allen Murray are all said to be probable candidates, and it is quite likely that Judge Durham will at the proper time be brought into the fight by his many ardent friends from all parts of the State. - Anderson News.

Mr. Randall says that the next Congress will abolish the Internal Revenue Bureau, thus carrying out the Republican platform and giving the people cheaper whisky and tobacco, while retaining the taxes on clothing, blankets, fuel and lumber. Perhaps it is all right, as the country suffered from Quay, Wainwright and Dudley to bribe it to vote that way last fall, but there is a hereafter, and a red-hot hereafter, at that. - Louisville Times.

The Kentucky Fish and Game Association, an organization with headquarters at Louisville, has determined to make a strong effort to protect the Fish and Game of the State from unlawful destruction. Among other things they propose to offer a reward of \$20 for the conviction of any and all persons guilty of using dynamite to destroy fish. This may do some good, coupled with the fine prescribed by the law for the offense, which may be any sum not exceeding \$20.

The Lexington Press says: "John Young Brown has entered into training for the gubernatorial Derby of '91, and further adds that Lieut. Gov. Bryan, of Covington, has put himself into the hands of his friends and says he will do his best to win. The two ends of the State will be the center of the State will cut no figure in the fight. Oh, no! it never does. If the icicle from Scott would only conclude to thaw out, there would be such a deluge as never was seen since Noah, and it is a fact that he may consent to do it."

It seems quite probable now that Calvin S. Brice will be elected Chairman of the next Legislature.

It is to be regretted that the party can not sentiment, to try to prove no mistakes. His lion for Mr. Cleve is the chief reason selection.

J. F. S.

Our Republican neighbor, the Winchester Sun says: "Col. John Barrett has declined the Republican nomination for State Treasurer and again the State Convention has made a nasty flumux by nominating a candidate who would not except. We used to laugh at the Democrats for blundering around blindly, but the table has sadly turned, and the Republican party has become ridiculous for stupid blundering." Jack Barrett knew that there would be a "muddle," and acted accordingly. To run a hard race, be defeated and then be sent half around the world, was more than the Colonel wanted just at present.

COLOR LINE IN POLITICS.

The President has appointed Lewis J. Parsons to be United States District Attorney for the Middle and Northern district of Alabama. Mr. Parsons, it will be remembered, organized the White Man's party in Alabama, the object of which was to exclude the negro from the ranks of the Republican party. At the time the movement was started, the colored people, especially the prominent negroes of the country, entered a protest, and did what they could to antagonize Parsons. Now that the President has appointed him United States District Attorney, the colored element are of course displeased. They say it is an insult to them, and an intimation from the White House that they are no longer to be recognized.

MONTHLY CROP REPORT.

OFFICE OF COMMISSIONER OF AGRICULTURE, HORTICULTURE AND FORESTRY, FRANKFORT, KY., June 1, 1889.

I have very full reports from eighty-three counties, embracing the principal portion of the State. The reports were dated from 20th to 28th of May. In many of the counties, at the date of these reports, little rain had fallen during March, April and the early part of May. The drought was broken on the 12th to the 15th of May; many sections having good rains and the balance only partial showers. On the 25th and 30th inst. there seems to have been a very general rain, and as a supplement to the report of regular correspondents, I telegraphed every section of the State in order to find out the condition; and beg to add what I conceive to be a fair estimate, as indicated by the information obtained. Rain in sufficient quantities has fallen at Maysville, Mt. Sterling, Frankfort, Louisville, Owensboro, Henderson, Paducah, Hopkinsville, Horse Cave and Lebanon.

The ground is now thoroughly wet, and the humidity of the atmosphere promises a lasting season. From all the reports received we deduce the following facts:

TOBACCO.

Bowling Green vicinity on the 30th, fifty per cent. of an average crop set, with only ten per cent. remaining to be set; Clarksville district, including the counties composing the same, on the 29th, twenty per cent. set; Owensboro district, same date, five per cent.; Fulton or Purchase district, twenty-five per cent.; Mayfield section, thirty per cent.; Georgetown, forty per cent.; Paducah district, twenty-five per cent.; Lexington district, fifty per cent.; Pleasureville, thirty per cent.; Horse Cave, thirty per cent.; Maysville, on the 31st, sixty per cent.

Since then good rains have fallen all over the State; and the percentage of setting will be materially increased. Many hindrances continue to warrant a material reduction of the crop from the product of 1888. It is yet too early to give reliable data, but we hope to do so in our next report.

[The reports from the Maysville and Bowling Green districts have been received since the recent rains of the past two or three days.]

Early in the spring the wheat never looked better, but the continued drought, howbeit, and the chinch bug, all combined to materially injure it. In Western Kentucky the chinch bug is very prevalent; in Central and Southern Kentucky the same is not so; still many kinds of wheat are excellent.

CORN.

The acreage in corn is 105 compared with ordinary averages; the planting was two weeks early than usual; the stand was generally satisfactory. It is very stalky and of good color, with the ground clear of grass and splendidly cultivated.

OATS.

The acreage in oats is larger than usual, but being essentially a wet weather crop, the drought seriously affected it, and like wheat on high, thin, rolling soil, is very inferior, but on level, moist land, will make a good crop, only in exceptionally dry sections.

RYE.

Will be below an average by reason of dry weather.

HEMP.

Is generally thin on the ground, which indicates a coarse flat; the outlook except on occasional farms, is by no means good.

SORGHUM.

This crop is rapidly increasing in the State as a forage for stock, as well as for making sugar and molasses, and the acreage is a fair average.

GRASS AND CLOVER.

These two important crops have been seriously affected by dry weather, and in many places were regarded as worthless; but the late rains will have a wonderfully good effect, and they can be, with good seasons, expected to be near an average.

FRUIT.

AVERAGE AMOUNT OF LIVE STOCK AND AVERAGE SIZE OF CROPS.

Horses, 97; mules, 93; cattle, 94; hogs, 85; sheep, 79; poultry, 100; bees, 100; corn, 105; wheat, 93; rye, 95; barley, 83; oats, 105; sorghum, 100; hemp, 84; clover, 97; grass, 100; potatoes, 100; apples, 100; peaches, 100; pears, 100; grapes, 100; garden products, 100; dairy products, 100.

PRESENT CONDITION.

Horses, 160; mules, 100; cattle, 100; hogs, 100; sheep, 100; poultry, 100; bees, 93; corn, 100; wheat, 85; rye, 87; barley, 91; oats, 70; hemp, 70; clover, 90; grass, 86; potatoes, 100; apples, 75; peaches, 95; pears, 100; grapes, 100; berries, 100; garden products, 100; dairy products, 95.

Very respectfully,

CHAS. Y. WILSON.

Commissioner of Agriculture.

The rainfall has been heavy all over the State and will cause much small grain to fall, but improve all the other crops.

NEWS PARAGRAPHS.

An English syndicate, representing many millions of dollars, is endeavoring to purchase a large number of distilleries in this State.

Scott Pearce was shot and killed from ambush near Jellico, Wednesday, by a man named McCarty. The trouble arose over a horse McCarty hired from Pearce and refused to pay for. McCarty has been arrested and at his examining trial was remanded to jail without bail.

The latest electrical wonder is that if you run a needle into your foot you can have it drawn out by putting your leg near a dynamo. This says one of the electrical journals, happened to a man recently after surgeons had sought in vain for the missing domestic implement.

During a funeral service over the remains of a colored woman at Nebo, Ky., Richard Green was shot and killed by Henry Perkins.

The American merchantman Caroline Miller was torpedoed and chased by the Haytian man-of-war Toussaint Ouvreure April 18, and narrowly escaped being sunk.

Mrs. Joe Peters, living near Bethel, Ky., nearly lost her life through poison administered in a cup of tea by a colored girl whom she had raised.

The Democrats of Lincoln county have nominated Mr. R. C. Warren to represent them in the lower branch of the next Legislature.

Hon. John B. Bowlett has been nominated by the Democrats to represent Hart county in the next General Assembly.

Survivors of the Conemaugh Valley disaster, to the number of 21,000 have already registered. The number of lost is now placed at 5,000 by those who a week ago estimated it at 10,000. Up to date 1,500 bodies have been recovered and the work goes steadily on.

Col. John C. Kellon succeeds Gen. Drum as adjutant general of the army, who has been retired by age.

Secretary Blaine has secured the position of register of deeds in the district of Columbia for his brother Bob, who is now a \$1,200 clerk. The new place pays \$6,000.

The brakemen on the Short Line division of the L. and N. struck Saturday day for an increase of 25 cents a trip, but they were discharged and new men put in their places at once.

According to reports from Elizabethtown, Wm. Showers, whose young wife committed suicide a few days ago is now a raving maniac, whose death is expected at any time by his physicians.

CONCERNING FARMERS.

A car load of aged mules sold for \$160 per head.

Good lambs are selling in this county at 54 cents.

Thirty mule colts were sold in Marion at \$75 to \$97.50.

Phallas, record 2:13, recently trotted a quarter in 32 seconds in stud condition.

A hundred yearling steers have been bought in Marion county at \$18 per head.

J. E. Bruce sold to Devo Frewitt in Lincoln 45 head averaging 724 pounds at 46 cents.

T. S. Wheeler, of Harrison county, has sold his crop of tobacco, 6,000 lbs., at 12 cents, straight.

Miss Burdett, of Bryansville, sold a Wilkes colt to Mr. Gustin, of Carlisle, for \$150, to be delivered Nov. 1.

Gentry Bros. bought of Mr. Alford, of Lincoln, a handsome gelding for \$325. They sold him soon after to a Lexington party for \$500.

J. W. Scott, of Boyle county, has sold a lot of extra large fat cattle to J. W. Poor, for 4 cents per lb., to be delivered any time between now and Nov. 1.

Mr. Leo T. Thomas' three-year-old bull, Lord Crethrems Crags 9655, has made the large gain of 645 pounds in the last twelve months, and now weighs 2,085 pounds.

W. A. Sutton returned from a trip to Kansas City and St. Louis, where he bought 44 mules that will average 16 hands. Mr. Sutton says they are the finest lot of mules he has seen anywhere. - Mt. Sterling Gazette.

There was a little stir here in tobacco circles Saturday afternoon. Capt. W. E. Simms sold 150,000 pounds of his late year's crop, to Messrs. Stephens & Siple, of Ripley, Ohio, at eight to ten cents. This was considered one of the finest and largest crops in the county. - Paris Kentuckian-Citizen.

T. P. Ripley, the big distiller, has bought all the cattle, about 800 in number, belonging to Byrne & Jeffries at his Tyroce distilleries. The price aggregates over \$30,000. Mr. Ripley will keep the cattle on slop till they are ready for market, and some of them may be continued till late in the summer. - Anderson News.

The Lexington Gazette says: "The poorest crop of bluegrass seed raised in Kentucky for many years, will soon be ripe for harvest. It is very thin on the ground, and much of it is straw-fallen. Horses are the greatest enemies to bluegrass seed among all stock. They strip the seed off, and as long as they have a supply of seed do not eat the blades."

Earthquakes strike terror to mankind, and cholera brought sorrow to our poultrymen until Garter's Magic Chicken Cholera Cure was sold here by Stockton & Brooks.

DIED.

At 5 o'clock A. M., on Monday, June 10th, at his residence on West Main Street, Dr. J. F. Cornelison breathed his last. He had been sick for nearly three weeks, and during a large part of that time was momentarily expected to die. He had every attention possible, but his disease baffled the skill of his physicians. An autopsy was held Monday afternoon which revealed a complication of diseases. Cancer of the spleen was probably the principal source of his trouble. His remains were buried in the cemetery yesterday afternoon.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years Doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure it with local treatment, pronounced it incurable. Science has proven Catarrh to be a Constitutional Disease, therefore requires Constitutional Treatment. HALL'S CATARRH CURE, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional Cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucus surfaces of the system. They offer One Hundred Dollars for any case it fails to cure. Send for Circulars and Testimonials.

F. J. CHENEY, Toledo, Ohio.

Sold by Druggists, 75c.

Louisville Tobacco Market.

By Glover & Durrett Louisville Tobacco Warehouse.

Sales on our market for the past week just closed amount to 2229 high with receipts for the same period 3400 hds. Sales on our market since January 1st amount to 55,750 hds. Sales of the crop of 1888, to date amount to 39,381 hds.

The unusually large receipts and sales for a week past have had no unfavorable effect on this market except as regards the common grades which have been very irregular and somewhat lower, and on this class of tobacco we find it proper to slightly lower quotations from a week ago. The good to fine grades remain firm. The recent weather conditions have been very favorable for putting out the new crop and in some sections the greater part of the intended crop has been put on the hill.

The following quotations fairly represent our market on Burley tobacco: \$2.50 to \$4.00. Common Lugs not colored, \$4.00 to \$6.00. Colory Lugs, \$7.00 to \$9.00. Common Leaf, \$7.00 to \$12.00. Medium to good leaf, \$13.00 to \$15.00. Select or wrappery leaf, \$15.00 to \$22.00.

interior-Journal has given Stan- dards that could not be overcome the booming of two Richmond

social Clubs, and did it after this number of traveling men and other

new negro loafers of this place. One in this way and is convincing

to put your trust in the confidence in man as well as evidence of the foolishness of

of liquor in a prohibition town, as a man unacquainted with the comes to town, these enterprising

of the street corners' proffer services to supply him with the stuff. The half dollar is given

anger directed to remain where a few minutes. This gives the to skip and he does so, leaving

and infuriated man the bag to go and the snow on the 1st of June

not in the least the crop of suc-

Class of '89 Exercises.

The class exercises of the Class of '89 of Central University were celebrated at the Chapel Monday night at 8 o'clock. Trost's band from Lexington furnished the music that enlivened the intervals between the duties. Mr. H. R. Taylor, of Morganfield, Ky., was chairman of the occasion. Dr. Woods, of Memphis, was called upon to offer the opening invocation. The orator of the class, Mr. John Van Lear, of Shreveport, La., was first introduced and delivered a very appreciative oration. Mr. W. O. Shewmaker, of Hardinsburg, had been selected as Grumbler for the class, and he did ample justice to his duties. His grumblings were many and seemingly serious and his listeners were frequently convulsed with laughter. The prophet of the class was Mr. James W. Tyler, of Wakefield, Ky., and he very vividly pictured the future history of each member of the class. Rev. J. L. Caldwell, of Bowling Green, pronounced the benediction, after which the class received their friends in the society halls, where sweet music furnished inspirations for a pleasant occasion.

The Kirkville Fair.

The tenth exhibition of the Kirkville Stock Fair Association will be held in Burnam's woods, near Kirkville, Friday and Saturday, July 26 and 27, 1889. The officers of the association are: President, Walter Bennett; Vice Presidents, W. P. Bennett, W. A. Anderson, H. L. Bennett, W. S. Hume; Col. D. W. Trill, J. P. Emory, Jno. F. White, C. C. Christian, Rev. H. E. Directors, L. S. Gibbs, J. B. Parks, James Shearer, Thomas Duerson, T. J. Curtis, Ed. Norris, E. H. Walker, Charles Ballew, T. S. Burnam, Arch Kavanagh, C. H. Field, D. B. Tevis, S. P. Ross, E. H. Field, D. B. Walker; Treasurer, John D. Simmons; Secretary, Jas. B. Walker, Assistant Secretary, J. H. Emory; Judges, Marshall, Jack Adams and J. McCotter.

Wolf & Trost's band of Lexington, Ky., will furnish the music. Nearly \$2,000 in premiums will insure a fine show of stock, and the established reputation of the ladies of that neighborhood for culinary skill guarantees a big dinner. This fair has always been the pride of the Kirkville people and every effort will be made by the association to surpass all previous entertainments. Good accommodations can be had for men and stock at or near the grounds.

The Bates Creek Tunnel is being pushed quite rapidly. It has been driven in 175 feet from the upper end, and 65 feet from the lower end and will be ready for the track by the first of September.

The following dispatch from Harrodsburg says: Col. Bennett H. Young, late president of the Louisville Southern, and Messrs. T. Bullitt, Thos. Harris and A. J. Porter were here Friday evening and Saturday. They made a strong but ineffectual effort to have the \$200,000 bonds of Mercer county delivered. Bonds to the amount of \$100,000 have been handed over, but the \$200,000 was withheld until the contract to establish here the round-house and machine shops was fully complied with. The company has a round-house and small repair shop, which they claim fulfills their contract. Isaac Pearson, the trustee, in whose hands these bonds now are, has taken the subject under advisement and will this week receive the legal opinion of his attorney, Col. P. B. Thompson.

The Baccalaureate Sermon and Y. M. C. A. Rev. John L. Caldwell, of Bowling Green, Ky., preached the Baccalaureate sermon of Central University in the chapel on Sunday morning to a very large audience. The choir was composed of some of the best musical talent in the city and rendered some very excellent music. Rev. Neander M. Woods, D. D., of Memphis, Tenn., offered prayer, after which the choir sang a voluntary. The sermon was one of great strength and exhibited a mastery hand throughout. His text was from I. Cor. 15-46. His theme was the law that which is spiritual is first, then that which is material. He showed in a conclusive manner the errors of faith cure, christian science and evolution. In concluding he appealed to the students to strive for a higher life than the natural, declaring that geology is of no profit to the student unless he finds the "Rock of Ages," that botany is of no profit unless he sees the "Rose of Sharon," that biology is of no profit unless he finds the "Lamb of God," and that history is of no profit unless it points to the "Star of Bethlehem." The discourse was appreciated by all a most masterly one. At eight o'clock Sunday evening, Rev. Dr. Woods, preached the annual sermon to the Young Men's Christian Association of Central University in the First Presbyterian church. His theme was devotion to principle as exemplified in the lives of the three Hebrew children who were cast into the fiery furnace for firm and unswerving devotion to principle. It was a strong appeal to young men and women to dare to do right and stand by it, and was most practical and convincing. The church was crowded with attentive and appreciative listeners.

A Sudden Death. On Monday last Mr. James Carlisle, of Silver Creek, was at Dr. Poynt's office for the purpose of having a surgical operation performed. Dr. Taylor was assisting in the operation, as one was required to administer the chloroform and one to handle the knife. The operation had barely begun when it was observed that the patient was sinking under the influence of the anesthetic. The usual remedies were at hand and were promptly applied, other medical aid summoned and for an hour every known remedy was resorted to but all without avail and the patient died. Mr. S. B. Hume, of W. S. Hume & Co., by whom Mr. Carlisle was employed, was at once sent for and he communicated with the family of the deceased. Coroner B. D. Miller was notified and at once took charge of the remains. At 2 o'clock the Coroner's jury held an inquest, conducted by County Attorney Sullivan. After due deliberation the following verdict was rendered:

We, the jury, summoned by B. D. Miller, Coroner of Madison county, find from the testimony before us that James Carlisle came to his death from the administration of chloroform, administered for the performance of a surgical operation, he being subject to epilepsy, which fact he had never made known to his physicians.

J. LEWIS FRANCIS, Wm. GREENE, JNO. F. STONE, DAVID NOBLE, Wm. H. GENTRY, ALFRED WILLIAMS, B. D. MILLER, Cor.

It was an unfortunate affair but no creature can be attached to any one connected with the case. Mr. Carlisle was subject to epilepsy and although questioned as to his health, health, etc., he failed for some reason to let the physicians know that he was subject to epileptic fits. Had this

fact been known the treatment would have been different and a result greatly deplored by every one might have been avoided.

Mr. Carlisle was a young man barely 21 years of age, and was not married. He was an industrious and hard working young man and highly regarded by all who knew him. His remains were taken to his father's home at Silver Creek, Monday evening, and were interred on yesterday.

Look Before Leaping.

The giddy young folks who are animated with a desire to do the extremely romantic act of skipping to Aberdeen and getting married, would do well to digest the following from this Mayville Bulletin:

"Some time since, Rev. D. D. Chapin, rector of the church of the Nativity, of this city, carefully investigated the statutes of Ohio, and became convinced that the marriage of runaway couples at Aberdeen, was not tenable in accordance with the laws of that State. Thereupon he wrote to Governor Foster in regard to the matter. The Governor referred the matter to the Attorney General, who in turn referred it to the Prosecutor Pearson, of Brown county. Shortly afterwards the Prosecutor had to go to Columbus on legal business and while there went to see the Attorney General. Big mussy law books were dragged from their long rest in places and duly examined, and at last it was found that 'Squire Beasley couldn't be hung for marrying people without license. Neither could he be imprisoned for life or sent to Congress. The law read that he could be made to forfeit a sum not exceeding \$1,000 for tying people together who had not previously interviewed a probate judge, but that is all."

"In other words, the law requires the couple to first produce a license before any minister or justice has a right to marry them. Marrying a couple without license renders the officiating justice liable to a fine of \$1,000."

Delivering Diplomas.

A very large audience of appreciative friends assembled in the Christian church on last Wednesday to enjoy the Commencement exercises of Madison Female Institute. The church was more than comfortably filled and standing room was a luxury. Many were turned away from the door, not being able to enter at all. At a few minutes past 10 o'clock the doors of the Baptist were thrown open and a lovely sight greeted the eager eyes of the audience. The eleven young ladies, each looking most charming and beautiful, advanced to their seats on the platform of the pulpit and were followed by Prof. Hagerman and William and Elder George Davis, of Frankfort. The entire school under the direction of the popular music teacher, Miss Mary Kyle, rendered a very lovely chorus, "A Song of Spring." Dr. Hamilton offered the opening invocation. Misses Ida Ramsey, Mary Hile, Christine Cromwell and Mamie Baldwin rendered very charmingly an instrumental quartet.

Elder Davis, who delivered the address to the graduates, introduced and spoke from the pulpit. His subject was "The Woman's Genius." He spoke of the woman as an admirer of the speaker, and his attention while he showed the queen of the realm of grace, is the ruler of the empire of needs and suffering, has in her immeasurable capacity for love and sympathy, and with equal dignity the realm of faith and spirit.

At the conclusion of this address, Miss Lizzie Baldwin, Mary Trill, West played an instrument. Prof. Williamson then awarded diplomas to the graduates. The exercises and was one of the most enjoyable features of the occasion.

Prof. Hagerman, who is now principal of the Institute, in view of the retirement of Prof. Williamson, delivered a short address and appealed for a liberal and hearty support of the Institute. A vocal sextette by Misses Beall, Gregory, Fetter, Feland, Hart and Douglas closed the exercises and was one of the most enjoyable features of the occasion.

Prof. and Mrs. Williamson entertained the graduates and faculty elegantly at dinner, after which a final farewell was spoken by most of the graduates, and the "Hill" was deserted until next September.

COMMENCEMENT VISITORS.

Mr. Quincy Ward, Jr., is visiting Mr. Sam Curtis.

Miss Douglas, of Lexington, is visiting Miss Annie Fletcher.

Miss Worthington, of Danville, is the guest of Miss Crutcher.

Miss Jessie Williams, of Cynthia, is visiting Miss Rella Barber.

Miss Pearl Gaines, of Boone county, is visiting Mrs. R. E. Turley.

Misses Sallie and Kate Humphrey, of Louisville, are at Prof. Barber's.

Rev. Dr. Woods, of Memphis, Tenn., is the guest of Col. R. X. White.

Miss Bettie Duncan, of Bloomfield, is visiting the Misses Logan during Commencement.

Mr. R. O. Wallace, of Chattanooga, class of '88, is visiting the family of J. Speed Smith.

Mr. Phillip Barbour and Dr. John B. are visiting their father, Dr. E. B. and family.

Drs. Hunter, of Harrodsburg, and Ballew, of Lexington, are the guests of M. James T. Shackelford.

Mrs. Glass and Miss Rachel Allison, of Georgetown, are visiting Mrs. C. C. Curtis at the St. Nicholas.

Miss Burns, of Mayville, Ky., is the guest of Mrs. Sam A. Deatherage during Commencement week.

Mrs. Morton, of Winchester, and her son, Prof. W. H. Morton, are among the Commencement visitors.

Rev. Wm. Davis, of Bloomfield, and Mr. and Mrs. Wakefield, of Wakefield, Ky., are at Dr. Blanton's.

Prof. James Henry, of Versailles, is spending Commencement week with his mother, Mrs. Emma Henry.

Miss Radie Stephens, of Covington, and May Violet Jones, of Lexington, are visiting Mrs. Gov. McCree.

Mrs. Beall and her daughter, Miss Carrie Beall, of Bethany, W. Va., attended the Commencement on the Hill.

Misses Hazelrigg and McGowan and C. D. and E. J. Grubbs, of Mt. Sterling, are visiting the family of Mr. T. E. Baldwin.

RELIGIOUS.

"Children's Day" at Providence next Sunday morning, June 17, at 10 o'clock. Dr. Henderson will conduct the services. He will preach at night at the Methodist church, this city.

Dr. R. H. Morrison died at the residence of his son in North Carolina. He was the oldest Presbyterian minister in North Carolina, was the first President of Davidson College, and the father of Mrs. Stonewall Jackson.

Sam Jones recently preached a sermon at Danville, Va., to 3,000 people, during which he called on all who had not taken a lie this year to stand up, and only four or five responded. He called on those who didn't love whisky to stand up, and less than twenty five arose.

Rev. H. T. Daniel late pastor of the Baptist church at Glasgow, Ky., will discontinue constant work for a few months on account of ill health. During his stay at Glasgow of one year and eight months he baptized ninety persons and added thirty more to his church by letter.

The subjoined paragraph, taken from the Paris Kentuckian, refers to the same gentleman who preached some good sermons in the Methodist church at this place a few months ago. The sermon referred to was preached at Millersburg: "Sunday morning the Methodist church could not accommodate the vast crowd assembled to hear the sermon by Rev. Means, of Nicholasville, to the graduates of the college. The preacher's voice is not good but he preached a powerful sermon. Many competent judges pronounced it one of the finest efforts they ever heard on a similar occasion. His text was Luke 11:21-22. He said I will shew thee things which are noted in the scripture of truth. He sought to show how great and good are the Jews. No Jews in our prisons, lunatic asylums, almshouses and among the beggars upon our streets. He said that was because they observed the Mosaic laws. This doctrine bores the Jews, but gives Christianity an orthodox black eye. Surely Christ's precepts are better for the world than the iron-clad, malice teaching laws of Moses, or Christ lived, suffered and died in vain. Rev. Means is an able man or he could not have made such a fine sermon out of such poor material. The Jew does not get in jail because he does not drink, and he does not drink because it costs money. He can make an old army blanket fit 'schust like der baper on der val'; squeeze a dollar until the eagle screams; have pockets put in his shroud, and then walk to the grave to beat the undertaker. He can do all this and manage to keep out of the poor-house, but he can hardly set himself up as an exemplar."

Miss Annie McChesney is visiting Miss Anna Frazee.

Judge Robt. Riddell, of Irvine, attended court last week.

Gov. James B. McCreary returned from Washington last Thursday.

Mr. Ed Ballard left yesterday for his home near Plattsburg, Mo.

Mr. Jas. Branton is at home from the Dental College at Louisville.

Mr. Keith Lackey, of Tacoma, W. T., is visiting Mr. Maxim Miller.

Mr. Howard Bailey, of St. Louis, is visiting his sister, Mrs. J. W. Hart.

Dr. J. Len Harris, of Versailles, will be in the city the early part of the week.

Miss Lizzie Barrett visited the family of Dr. Gill, in Danville, last week.

Missess Barbour has returned from attending college at Bryn Mawr, Pa.

Prof. J. Tevis Cobb has returned from teaching his graded school at Henderson, Ky.

Miss Zenaida Embry has returned from a visit of several weeks in Bourbon and Scott.

Miss Birdie Gibson, of this county, was graduated from Midway Orphan School last week.

Mrs. M. De G. Forman and Miss Willie Kern have gone East for pleasure and study.

Miss Carrie Barbour will return tomorrow to the Conservatory of Music at Cincinnati.

Mrs. Bradford and Mrs. Guord, mother and aunt of Mrs. S. Moberley have gone home.

Miss Madge Busick, of Wahash, Ind., is visiting her cousin, Mrs. J. W. Hart, at the Garnett House.

Hon. Cortez Ewing, State Senator, of Indiana, and Mrs. H. Ewing are guests of Dr. and Mrs. Poyntz this week.

Mrs. Prof. Hagerman and Miss Jessica Campbell will leave on Friday for West Virginia to spend the summer.

Mr. D. Shanahan, of Louisville, the venerable railroad contractor, has been the guest of Capt. Powell for several days.

Miss Lulu Branton has returned from Lexington and Miss Annie Bridgeforth, of Mt. Sterling, is her guest for the week.

Mr. James P. Slusher, President of the Pineville Bank, and Mr. J. C. Parrish are here on exceedingly private business.

Miss Sallie Cobb, of Red House neighborhood, and Miss Edna Lee Royce, of Boonesboro, have returned from school at Science Hill Academy, Shelbyville.

Misses Hemphill, of Jessamine county, Miss Martin, of Cynthia, and Mr. Willmore Garrett and lady, of Woodford county, are visiting Dr. A. G. Woods and family.

John G. Fitzpatrick, one of Madison's most promising young men, located at Pineville in the practice of law, is visiting the family of his father, Mr. C. N. Fitzpatrick.

Mrs. W. B. Cass, of Blanchester, O., accompanied by Miss Minnie Chunn, of Mayville, Ky., visited her brother, Mr. John Horine, last week, who has been dangerously ill at this place.

EDENTON. Born, to the wife of W. J. Wylie, a son, Louis A.

John M. Burton sold a suckling mule to Joseph McDowell for \$10 dollars.

W. J. Warfar has bought an engine and boiler and is preparing to start a saw-mill.

T. J. saw-mill owned by Peel & Blatterman at the mouth of Paint lick has started again.

Last Sunday two marshals from Lancaster came down and arrested George Sewell on the charge of setting whisky without license.

HERE IS MUSIC FOR YOU.

H. J. Streng furnishes it. These are the notes: All good fancy Calicoes, 5c. 13 yards Lonsdale Green Tick- et, 95c. 13 yds. Masonville Cotton, 95c. 13 yds. Fruit of the Loom Cotton, 95c. 15 yds. Hope Cotton, 95c. 17 yds. AAA, yard-wide, Brown Cotton, \$1.00.

Boils, pimple, hives, ringworm, tet- ter and all other manifestations of im- pure blood are cured by Hood's Sarsa- parilla.

A Choice List of Summer Resorts. In the Lake regions of Wisconsin, Minnesota, Iowa and the two Dakotas, there are hundreds of charming localities pre-eminently fitted for summer homes. Among the following selected list are names familiar to many of our readers as the perfection of northern summer resorts. Nearly all of the Wisconsin points of interest are within a short distance from Chicago or Milwa- ukee, and none of them are so far away from the "busy marts of civilization" that they cannot be reached in a few hours of travel, by frequent trains, over the finest road in the northwest—the Chicago, Milwaukee & St. Paul Rail- way:

Oconomowoc, Wis. Clear Lake, Iowa. Minocqua, Wis. Lakes Okoboji, Ia. Waukegan, Wis. Spirit Lake, Iowa. Palmox, Wis. Frontenac, Minn. Tomsahawk Lakes, Lake Minnetonka, Minn.

Wis. Lakeside, W. Ortonville, Minn. Kilbourn, W. Lake Minn. (Dells), Wis. Bear Lake, Minn.

Any stamp entitled V. H. C. Agent, Minn.

Elegant Line of Worked Lin- Bradford's Female Regulator

Wanted: Improvement in the world; can not express my grati- tude. Wish every lady afflicted monthly would try it. I know it would cure them.

MRS. LULA A. LONG, Spring Grove, Fla. Write Bradford Regulator Company, Atlanta, Georgia.

Nearest line of Hosiery at the Palace. Do not take quinine for malarial dis- orders. Ayer's Cure contains none, nor any other injurious ingredi- ent. This preparation, if taken strictly in accordance with directions, is war- ranted to cure all malarial diseases. 11

Best French Sateens, 23¢ cents at the Palace.

HERE IS MORE MUSIC! H. J. Streng still furnishes it. These are the additional notes:

Best French Sateens, 25c. Handsome Challies, 5c. Good Dress Gingham, 7c. Handsome Henriettas, 25c. Ladies' Shoes and Slippers at music prices.

It Cured Bright's Disease. SPEEDWELL, Ky., May 4, 1889.—This is to certify that I had Bright's Disease, or something very much like it, and was in very feeble health. This was in the year of 1887. I used one dozen bottles of Smith's Kidney Tonic, and I am now in better health than I have been for years.

JAMES M. HENDREN. Sold by W. G. White, Prescription Druggist, Richmond, Ky. 49-cw.

Six spoons of Clark's thread for 25 cents at the Palace.

Calico's at 4 cents and up at the Pal- ace.

Lalor buys Country Produce, Hags and Iron. 44-17.

Farmers Beware! Don't Buy a Spring Tooth Cultivator until you see the Albion.

For Sale Only By JOEN G. TAYLOR, Sole Agent for Madison County.

The only single apron binder on the market is manufactured by Walter A. Wood, and for sale by BRECK & PHELPS.

This doctrine bores the Jews, but gives Christianity an orthodox black eye. Surely Christ's precepts are better for the world than the iron-clad, malice teaching laws of Moses, or Christ lived, suffered and died in vain. Rev. Means is an able man or he could not have made such a fine sermon out of such poor material. The Jew does not get in jail because he does not drink, and he does not drink because it costs money. He can make an old army blanket fit 'schust like der baper on der val'; squeeze a dollar until the eagle screams; have pockets put in his shroud, and then walk to the grave to beat the undertaker. He can do all this and manage to keep out of the poor-house, but he can hardly set himself up as an exemplar."

Miss Annie McChesney is visiting Miss Anna Frazee.

Judge Robt. Riddell, of Irvine, attended court last week.

Gov. James B. McCreary returned from Washington last Thursday.

Mr. Ed Ballard left yesterday for his home near Plattsburg, Mo.
